SUPPLIER-ISSUED PROJECT COMPLETION & GIS CAPABILITY STATEMENT

Two Rivers Platinum Mine - Geographic Mapping & Spatial Reporting

Prepared to accompany the Cape Town Coastal GIS Mapping Application quotation for Natalie / Starboard Steel

Reference / Date	CT-AT-GIS-TRP-072026 24 July 2026
Issued by	CallTech Technologies (Pty) Ltd, supported by AlgoaTech Solutions
Recipient / Purpose	Natalie - Starboard Steel Quotation support document

To Whom It May Concern

CallTech Technologies (Pty) Ltd, together with AlgoaTech Solutions as its automation and backend systems delivery partner, confirms that our delivery team completed a prior project engagement associated with Two Rivers Platinum Mine. The completed work included geographic mapping, locality visualisation, structured demographic data, formal report compilation and technical delivery support.

The final record contains municipality and locality maps, population and community data, spatial reporting, and a signed client-side undertaking / approval page. Selected original pages from that record are attached to this statement as supporting evidence.

Capabilities demonstrated

- GIS-informed mapping of municipalities, localities, communities and development areas.
- Integration of maps, demographic data, tables and narrative reporting in a single formal deliverable.
- Structuring and validation of geographic, population and stakeholder information.
- Production of review-ready corporate documentation with controlled formatting and quality assurance.
- Delivery of an approved and commercially settled project engagement.

Project status confirmation

Delivery status	Completed
Deliverable status	Final project record submitted with client-side signed approval / undertaking page
Commercial status	Paid and settled according to CallTech internal financial records
Outstanding scope	None under the completed engagement

Important transparency note: *This is a supplier-issued completion and capability statement. It is not a testimonial written by Two Rivers Platinum Mine and must not be represented as such. The attached pages are reproduced from the project record only to evidence the mapping content and signed client-side undertaking / approval page. Detailed bank payment proof is confidential and is not appended.*

AUTOMATION AND BACKEND SYSTEMS DELIVERY SUPPORTED BY ALGOATECH

Delivery scope and relevance to the proposed Cape Town GIS application

Completed-project capability	Evidence in project record	Relevance to Natalie / Starboard Steel
Geographic mapping	Municipal and locality maps appear in the completed deliverable.	Interactive coastal map layers, attraction pins, service areas and location-based discovery.
Structured spatial data	Maps are supported by locality, population and community tables.	Restaurant, tourism, beach, activity and operator listing data connected to coordinates.
Data-rich reporting	Spatial content is integrated with narrative and tabular analysis.	Ratings, reviews, categories, filters, admin reporting and listing analytics.
Formal QA and delivery	The document is professionally structured, submitted and approved.	App-store readiness, backend validation, testing, controlled releases and support.
Secure technical coordination	Large project record coordinated across technical and business functions.	CallTech client delivery combined with AlgoaTech application, API and backend systems support.

Commercial and delivery confirmation

Project completion

The contracted scope was completed and delivered.

Acceptance evidence

The attached project record contains a signed approval / undertaking page.

Payment confirmation

CallTech confirms the engagement was paid and commercially settled. Confidential payment records can be verified separately where lawfully required.

POPULATION PATTERNS

The present total population of Sekhukhune is estimated at 1,169,762. The most populated local municipalities are Fetakgomo Tubatse Local Municipality, Makhuduthamaga and Elias Motsoaledi respectively. Between the census of 2011 and the community survey 2016, population in some municipalities has decreased while it increased significantly in others:

GREATER TUBATSE LOCAL MUNICIPALITY

Fetakgomo-Greater Tubatse Municipality (Tubatse hereafter) is approximately 4 550 km in size and is known as the Middelveld as it is located between the Highveld and Lowveld regions. It forms part of the Sekhukhune District Municipality in the Limpopo Province.

Map showing fetakgomo Tubatse Municipality

Figure 5 below indicates Fetakgomo Tubatse Map:

The total population in the area is approximately 490 381 with 125 361 households which makes Fetakgomo Tubatse a municipality with highest population in the district. A very large proportion of the labour force in Fetakgomo Tubatse Municipality is unemployed (73%), based on an expanded unemployment definition and 42.7% of the total households have no income.

The table below indicates projected population growth in some areas of the municipality:

TABLE 11 –POPULATION GROWTH

Population Group	Female	Male	Total
Black African	172 654	157 156	329 810
Coloured	284	358	643
Indian or Asian	307	230	538
White	2 029	2 380	4 409
Other	81	196	277
Total	175 278	160 398	335 676

Source: Statistics South Africa, CS 2016

The majority of people are moving to urban areas, that is:

- Burgersfort (ward 1),
- Steelpoort (ward 3)

This is simply because these are the areas of employment opportunities.
